Good morning Patriots:

THE TRUTH HURTS—

President Obama has now taken on Americans for Prosperity. He says he does not know who AFP is. Here's a news flash....we are! Thousands of Americans are! There is nothing sinister about AFP. Click on this link to watch the response:

COMMENTARY:

Decisions, decisions...

Hoosier Patriots, Inc. (HP) monitors many patriot "MeetUp" sites as a member of the site. It enables us to follow organizational and individual blogs, theoretically keeping us abreast of what's happening within the movement. Additionally, we monitor many patriot writings and occurrences on Facebook© and Twitter© for the same reason. While time consuming, this monitoring is invaluable in testing the pulse of the patriot movement.

It comes as no surprise patriots are most concerned about the economy and jobs. The growing federal deficit frightens most thinking Americans. The voters know the federal government cannot continue to spend mountains of cash it does not have. The discontent over an irresponsibly spending Congress and an administration that is less than candid with the American people lies at the root of public dissatisfaction.

There is palatable anger among citizens newly motivated to pay attention to what Congress and the administration are now doing, and what past administrations have done. Voters had not paid attention for years, but are now highly motivated to reverse the trend and return to the Constitution.

Realistically, recent legislation diluting liberties cannot be reversed without a major shift in which party has the majority. A simple majority will not stop the bleeding. It will take a majority larger than now exists in the Congress. A large majority will be necessary to be able to override what will certainly be veto action by the President.

More and more incumbents are finding they do not fit into the mold patriots are hammering out nationwide.

COMMENTARY Continued:

One hour to save the country....

All the talking heads and most patriot organizations, including Hoosier Patriots, Inc. advise "talk to 10 people, take 10 to a meeting, knock on 10 doors, and so on. But, there is another way that seems almost too simplistic. "Give us one hour a week."

Only one hour a week?

Within that singularly simple one hour, call every friend you can, make as many "cold" calls at you can, knock on as many doors as you can, hand out "knowledge summaries" across a neighborhood.

One hour, an amazingly simple concept, is not intimidating and is certainly doable for virtually any person.

Why, most of us can find an hour sometime during the day.

Think of it. If every patriot—you know, "Tea Party", "9-12ers", "We the People"—can grab one hour a week, maybe an hour every other day, this fight for America is over, Baby!

So, what about you? Can you find 60 minutes to save your country?

It's all about deficit spending and jobs, jobs, jobs...

Have you noticed the television advertising recently? If it were not so seriously critical in nature, it would be quite comical how incumbents are now running ads they have "...always worked for you, not Washington." Or, "...I'm fiscally conservative, and am always looking out for you."

Those who voted for the \$787 billion stimulus, the healthcare disaster, the financial reform package that does no reforming--the list is large—are in deep trouble and they know it. They will say anything to return to their plush offices on the Hill.

RANDOM THOUGHTS...

SHAME ON US!!

Shame on us for not getting out in our communities at church, baseball games, football games, 4th of July festivities, 4-H Fair, and so on, to talk with our neighbors about what it really means to be an American Patriot. The main stream media has done an excellent job diluting and totally misrepresenting to the ordinary citizen our view point. When you are out and about, grocery store, gas station, work, or wherever, try to engage people with what is going on in our country. You'll be surprised how many agree and are looking to join the battle. But, there are still so many people who don't know about local "meet-ups" and events close to them.

SPEAK THE TRUTH WITH BOLDNESS!

Many of us may say, "I don't know what to say". Simply speak the truth with boldness. You feel it in your gut, you know it in your heart, so, don't be afraid. Our country needs each and every one of you to get the word out to those who are not already sitting next to you at a "meet-up" or rally. Patriot groups are not growing as rapidly as they could if we would each tell our neighbors what we are really about. We have done well sending letters to our congressional leaders, calling, faxing, shouting at rallies. But it is past time to take our messages to our communities. Each person needs to hear the truth about the patriot movement. Use flyers everywhere you can. Make pamphlets explaining the patriot position, stay on point. There is plenty of information you can use...the Internet, Hoosier Patriots web site.
